

Assignment 1: Exploring AI with Creativity

Description: In this assignment, learners collaborate to create an AI-powered digital branding agency using tools like ChatGPT and Canva Magic Media. They go through branding setup, content creation, and monetization strategies, working towards a marketable digital branding portfolio.

Objectives

- Understand the role of AI in branding and digital marketing.
- Use ChatGPT to generate compelling branding stories and marketing copy.
- Use Canva Magic Media to create logos, social media graphics, and promotional materials.
- Develop a structured approach to branding and client outreach.
- Apply business and monetization strategies to create a profitable AI-powered branding service.

Phase 1: Branding & Business Setup

Business Name: NeuroBrand AI

Tagline: Future-Ready Branding, Powered by Intelligence.

Mission: To empower startups and small businesses with cutting-edge, AI-driven branding solutions that merge creativity, technology, and strategy—helping them stand out in the digital era.
